

SMRITI SHRESTHA

Virtual Assistant | Operations & Digital Project Support | UI/UX Designer

Lubhu, Lalitpur, Nepal | +977 9813708697 | smrityshrestha734@gmail.com | [Portfolio](#)

PROFESSIONAL SUMMARY

Detail-oriented Computer Science professional with 1+ year of remote UI/UX and digital project experience supporting websites, marketing content, documentation, and cross-functional workflows. Skilled in Google Sheets, online research, file organisation, task coordination, and quality checking, with hands-on use of Slack, Basecamp, Notion, and Jira. Experienced in managing multiple priorities independently and translating requirements into accurate, organised deliverables; now seeking to apply these transferable skills in affiliate operations.

SKILLS & TOOLS

Operations & Reporting: Google Sheets, data entry, sorting and filtering, data validation, conditional formatting, lookup formulas, reporting support, documentation, online research, shared-file organisation, quality checks

Collaboration: Slack, Basecamp, Notion, Jira, remote task coordination, feedback tracking, professional written communication

Design & Content: Figma, Canva, wireframing, prototyping, user flows, visual consistency, website and marketing-content preparation

Technical: HTML, CSS, JavaScript, React.js, Git, GitHub, Node.js, MongoDB, Java, Python, C#

PROFESSIONAL EXPERIENCE

UI/UX Designer | Idealaya

Jan 2025 - Feb 2026

Remote

- Produced 35+ testimonial graphics and 30+ marketing assets for travel and digital brands, translating briefs and feedback into accurate, on-brand deliverables across websites and social channels.
- Coordinated parallel assignments, revisions, and status updates through Basecamp and Slack, maintaining organised project files and delivering work within agreed deadlines in a remote environment.
- Supported website content and visual updates for CoreTrekks, Action Nepal Trekks, AscendHikes, and related projects, checking copy, layout, and brand consistency before publication.

UI/UX Intern | Development Platform (HCK)

Jun 2024 - Sep 2024

Kathmandu, Nepal

- Designed end-to-end recruitment portal workflows for user, HR, and admin roles, organising job listings, application forms, dashboards, and navigation into one consistent system.
- Converted requirements and feedback into wireframes, user flows, and high-fidelity Figma prototypes, improving documentation and handoff clarity for the project team.

RELEVANT PROJECTS

Affiliate Campaign Operations System | [Google Sheets](#) & [Notion](#)

- Built a simulated operations system using synthetic data to maintain campaign status, payout, GEO, restriction, affiliate, and reporting records; added validation, duplicate checks, lookup formulas, conditional formatting, and escalation documentation.

SewaHive | MERN Stack | [Live Demo](#)

- Built and documented a home-service marketplace with role-based dashboards, booking, notifications, chat, reviews, payments, and admin workflows, demonstrating structured process design and end-to-end project ownership.

EDUCATION

BSc (Hons) Computer Science | Herald College Kathmandu

Feb 2024 - May 2026

Naxal, Kathmandu

Relevant areas: Human-Computer Interaction, Full-Stack Development, and Web Technologies

Science (Physics) | DAV College, Jawalakhel

Jul 2021 - Aug 2023
